

MAHA SELJA V.K.

+91 90423 03539 — mahaselja479@gmail.com — Nagercoil, Tamil Nadu, India ◊ [LinkedIn](#) — [GitHub](#)

OBJECTIVES

Aspiring Software Quality Assurance Engineer with knowledge of manual testing, software development, and web technologies. Strong foundation in JavaScript, Python, REST APIs, and problem-solving. Eager to build expertise in manual and automation testing using Playwright while contributing to high-quality software delivery.

TECHNICAL SKILLS

Languages : Python, JavaScript, HTML, CSS
Frontend : React.js
Backend : Flask, Django, Node.js
Databases : MySQL, MongoDB, SQLite
Tools : Git, GitHub, VS Code
Core : REST APIs, CRUD Operations, API Integration
AI/ML : Computer Vision, Deep Learning, CNN, OpenCV, TensorFlow
Testing: Manual Testing ,Playwright , JIRA

PROJECTS

JOBNEST Website

2025

Full Stack Web Application

Developed a responsive full-stack job portal for job search and application management.
Built frontend interfaces using React.js and implemented backend functionalities using Flask.
Integrated REST APIs and CRUD operations for efficient user and job data management.
Managed database connectivity and optimized application flow for improved user experience.

Tech Stack: React.js, Flask, JavaScript, SQLite

AI-Based Child Safety Monitoring System

2026

Deep Learning Project

Developing a real-time child safety monitoring system using webcam-based video analysis.
Built a CNN-based emotion detection model to identify fear and distress patterns from facial expressions.
Integrated panic detection and emergency alert functionalities for enhanced safety monitoring.
Applied image preprocessing and model optimization techniques to improve prediction accuracy.

Tech Stack: Python, OpenCV, TensorFlow, CNN, Computer Vision

INTERNSHIP

Networkz System

Jul 2025 – Aug 2025

Full Stack Developer Intern

Nagercoil, Tamil Nadu

Developed responsive web pages and integrated REST APIs.
Assisted in backend CRUD functionalities using Flask and SQLite.
Collaborated with team members for frontend and backend enhancements.

Aenexz Tech Private Limited

2026 (3-Month Stipend-Based Internship)

Generative AI Intern

Bengaluru

Developed Generative AI applications using Large Language Models (LLMs) with Python, implementing prompt engineering and API integration to build AI-powered solutions.

Designed and integrated AI functionalities into web applications, utilizing structured outputs and testing AI responses for accuracy and performance. with the development team to optimize AI application performance and user experience using Python, Git, and modern Generative AI frameworks.

EDUCATION

C.S.I. Institute of Technology, Anna University

2022 – 2026

B.E. Computer Science and Engineering

Tamil Nadu, India

CGPA: 8.62/10

Minor Degree in Entrepreneurship

ACHIEVEMENTS

- Secured 3rd place in Anna University Zonal Chess Tournament (2025–2026).
- Participated in technical symposiums, coding contests, and workshops.
- Built multiple academic projects in full stack and AI domains.
